

**HINTS AND TIPS (2)**

**ON**

**SELECTION OF TARGET GROUPS, BASED ON A TRANSPARENT METHOD**

**- FOR ALL PARTNERS -**

We kindly advise you to carefully read **Art. 7, section A, paragraph 5 (i) of your Subsidy Contract**, stipulating that the **LB ensures** the implementation of the entire project and has to make sure **that all Project partners select** their final beneficiaries of the projects **(target groups) by a transparent procedure**.

To support you in having a smooth implementation, we advise you to make sure you document properly the way members of your target groups and/or beneficiaries have access to the outcomes/results/deliverables of your projects.

If you organize **training courses**, ensure a **wide promotion of the opportunity** and free access for everybody interested, in the limit of your budget.

If you create a certain **infrastructure**, please **open it for the public**.

In case you **publish a book** or just elaborate a **training support material**, please **make it available for the public** on your website/Facebook page.

**We strongly encourage you to make your accomplishments visible!**
