Project title	A Cross-Border Open Model of A Digital Museum Database
Priority axis	6 - Promoting cross-border cooperation between institutions and citizens (Cooperation of institutions and communities)
Investment priority	11/b1 - Promoting legal and administrative cooperation and cooperation between citizens and institutions. Cooperation for institutions.

Objective	<p>The main overall objective of the project is to raise the level of cooperation of institutions in the Romanian and Hungarian cross-border areas. This objective corresponds to the projects priority axis PA6 (Promoting cross-border cooperation between institutions and citizens {Cooperation of institutions and communities}), as it enhances the level of existing cooperation as well as involves institutions and organizations that have not participated in cross-border cooperation programmes before. To successfully implement the joint activities ongoing communication, sharing of knowledge and experience is required by each partners. Long-term cooperation is ensured by the planned activities characteristics: the implementation of a database is the first step in maintaining the entire system and constantly expanding it by adding new data; the international conference is expected to have a multiplying effect; the virtual exhibitions and the use of holograms enable the promotion of the realized outputs.</p>

TOTAL Budget	€ 390,775.00, out of which ERDF € 332,158.75
Summary	<p>The following activities are foreseen to be implemented within the project:</p> <ul style="list-style-type: none"> - developing a digital model for public collections (research, purchase of equipment and training) - practical applications of digital museums (workshops, education and awareness-raising, preparation of Cultural Guides, monographies and brochure, Modernised and virtual exhibitions) - workshops <p>Project results:</p> <ul style="list-style-type: none"> - the programme result indicator is the intensity of cross-border cooperation. The project is implemented with the involvement of 6 partners, 3 from the Hungarian and 3 from the Romanian side. The activities carried out in cooperation serve a dual purpose – an external with the aim of achieving the set goals by producing the planned outputs, and an internal one with the main goal of fostering cross-border cooperation between institutions and citizens. The project will improve the intensity of cross-border cooperation in the following ways: - the six partners involved will have at least 4 physical meetings during the implementation, in the form of professional workshops, where experts from all sides come and share ideas and experiences. However, the coordinated process of design, piloting and roll-out will require much more frequent virtual meetings as well, in the

	<p>form of emails and phone conferences. Cooperating partners mutually support each-other by know-how transfer.</p> <ul style="list-style-type: none"> - all meetings and interactions will be documented: memos will be prepared and stored for each personal and virtual meeting of project partners, while the web server will file all online communication between local actors - throughout WP T2 and T3, numerous publications will be produced, as well as significant development in the presentation and attraction of cultural heritage sites and collections at all 6 partners. These, together with the coordinated communication activities of the project, will generate new cross-border cultural tourism visits - the cooperation of partners, the professional events and training program incorporated into the project actually creates an integrated local pool of experts and cultural managers, with a potential to sustain and expand the project results, generating even more cross-border interaction in the future
