Investment priority	5/b- Promoting investment to address specific risks, ensuring disaster resilience and developing disaster management systems.
Implementation period	25 Months (01 st April 2019- 30 th April 2021)
Objective	The project's main overall objective is the improvement of the quality of the existing system on addressing specific risks (prevention and management) and improving disaster resilience of the 35110 people from the Zerind - Újkígyós cross-border area, in 22 months.
Partnership	Lead Beneficiary: Zerind Commune (Romania)
	Project Partner: PP2: Újkígyós Town (Hungary)
TOTAL Budget	€ 489,230.00 out of which ERDF € 415,845.50
Summary	<p>The project ROHU 54 aims a new partnership for cross-border cooperation between Zerind Village and Újkígyós Town in the field of risk management and prevention such as wildfires, fires, storms, etc.</p> <p>Main activities:</p> <ul style="list-style-type: none"> • Purchase of specific equipment (2 trucks, a rapid intervention vehicle, fire suits, extraction equipment, pump, telescopic ladder, etc.) • Organizing 4 common simulation exercises (with 35 volunteers) • Organizing a certified professional training course for two volunteers from Zerind • Organizing a training for volunteer firefighters (20 participants) and an advanced one (5 participants) in Újkígyós • Organization of 2 joint workshops for better collaboration, for at least 15 relevant actors from the Zerind -Újkígyós border area • Development of a common plan for risk prevention and mitigation for a unitary approach to risks in 12 localities on both sides of the border

	<ul style="list-style-type: none"> Organizing awareness campaigns for the local population - "Rescue Day" in Zerind and Újkígyós for at least 200 people / event (simulation of rescue exercises, educational activities, presentation of intervention teams and their activities to the local population) <p>The Programme Output Indicator is "5/b 1 Population safeguarded by improved emergency response services".</p> <p>Through the project ROHU-54, 28,154 persons are better-protected inhabitants as a result of its implementation.</p>
<p>Main results</p>	<p>The project results are related to the increased common capacity for risk prevention and disaster management through the specific equipment. Thus, 14,474 people in the Zerind area and 13,680 people in the Újkígyós area benefit from better-equipped emergency intervention services. Firefighters in the area have a common plan for prevention and mitigation of risks and increase their level of training by participating in joint training sessions and simulation exercises. All this contributes to increasing the quality of the cross-border risk management and disaster management system.</p>
