Main results	The project main results are:

Interreg

EUROPEAN UNION

Romania-Hungary

European Regional Development Fund

GOVERNMENT OF ROMANIA

HUNGARIAN
GOVERNMENT

- the increased capacity for risk prevention and disaster management by purchasing intervention vehicles that will complement and upgrade the existing fleet,
- the educational activities, intended for volunteers, students and teachers, resulting in increased awareness and training in case of emergency of the population,
- the risk management strategy developed by the project participants and the common protocols that allow the three counties involved to address more effectively the predictions, occurrence and consequences of disasters.
