

**Complementarities and synergies with other EU funded programmes (direct management and shared management), including national operational programmes and other ETC programmes**

- Complementarities and synergies with EC funded programmes 2021-2027

There will certainly be several complementarities and synergies with EC programmes under EC direct management, as indicated in the following table. However, due to the differences related to the scale, territorial coverage and objectives of these programmes, the scope of the actions and expected results will possibly be synergic and complementary, whilst never overlapping. On the other hand, as far as the Recovery and Resilience Facility is concerned, there will also be strong complementarities and synergies with all selected priority objectives. However, the RRF will be focused on the impact of funds on structural reforms' processes at national level, whilst Interreg actions will be focused on the attainment of cross-border cooperation objectives.

Priority	Policy / specific objective	Horizon Europe	Erasmus +	Life	URBACT IV	Recovery and Resilience Facility RO	Recovery and Resilience Facility HU	EU Civil Protection Mechanisms	Connecting Europe Energy

- Complementarities and synergies with other Interreg programmes 2021-2027

Few Interreg programmes will cover the same Romania-Hungary programme area on both sides of the border in the same time. These are: Interreg Europe, Interreg Danube and Interreg Hungary-Slovakia-Romania-Ukraine. Although there could be strong synergies (ex. valorisation of lessons learnt, results, replication of best practices, fructification of existing partnerships), the scale, territorial coverage and objectives of these programmes will avoid the occurrence of the risk of double

funding. As concerns other Interreg programmes, involving at least one of the MS (Hungary or Romania), although many programmes have selected the same priorities and policy objectives, the territorial coverage of the interventions will be different from the Interreg ROHU programme (in most cases, other border areas will be targeted).

Priority	Policy / specific objective	Interreg Europe	Interreg Danube	Interreg VI-A România-Bulgaria	Interreg NEXT Romania-Republic of Moldova	Interreg NEXT Romania-Ukraine	Interreg IPA-III-CBC Romania-Serbia	Interreg NEXT Black Sea Basin Programme	Interreg A NEXT Hungary-Slovakia-Romania-Ukraine

- Complementarities and synergies with other Interreg programmes 2021-2027 (continuation)

As already said, although many other Interreg programmes have selected the same priorities and policy objectives, as also shown in the table below, the territorial coverage of the interventions will be different from the Interreg ROHU programme (in most cases, other border areas will be targeted, in particular not the same ROHU border areas in parallel, which will thus mean lack of cross-border effect on the two sides of the border).

Priority	Policy / specific objective	Interreg VI-A Austria-Hungary	Interreg VI-A Slovenia-Hungary*	Interreg VI-A Hungary-Croatia	Interreg VI-A Slovakia-Hungary	Interreg IPA-III-CBC Hungary-Serbia

\* based on the preliminary proposals of selected priorities

- Complementarities and synergies with Romanian ESIF funded programmes 2021-2027

The programme will be complementary and synergic with Romanian ESIF funded programmes 2021-2027 (managed at both national and regional level), across all selected policy objectives. Besides the scope, territorial coverage and expected results of operations (which will have a cross-border character and a cooperation outcome in the case of Interreg-funded projects, whilst they will be focused on local and national needs in case of other ESIF funded programmes), double funding will be avoided through national monitoring and data sharing systems. Additionally, the technical assistance PO will be also complementary with actions envisaging capacity building of local stakeholders, which are planned under each specific objective and ISO 1, 6.1 (with a different target group and purpose of capacity building).

Priority	Policy / specific objective	PO Health	PO Sustainable Development	PO Inclusion and Social Dignity	PO West	PO North West	PO TECHNICAL ASSISTANCE	PO JUST TRANSITION

3	ISO 1 – 6.2							
3	ISO 1 – 6.3							

- Complementarities and synergies with Hungarian ESIF funded programmes 2021-2027

The programme will be complementary and synergic with Hungarian ESIF funded programmes 2021-2027, across all selected policy objectives, including cross-cutting technical assistance interventions planned in each operational programme. Besides the scope, territorial coverage and expected results of operations (which will have a cross-border character and a cooperation outcome in the case of Interreg-funded projects, whilst they will be focused on local and national needs in case of other ESIF funded programmes), double funding will be avoided through national monitoring and data sharing systems.
